

APPENDIX C

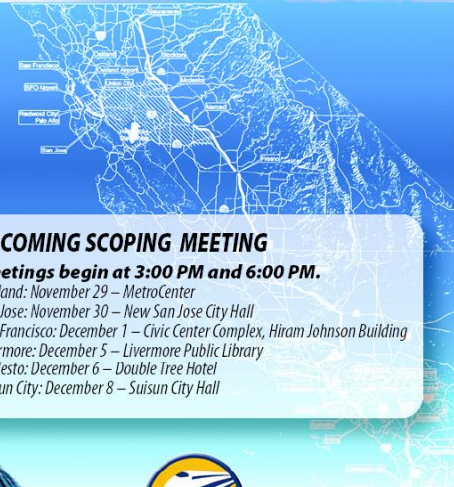

SCOPING MEETING ANNOUNCEMENT POSTCARD

BAY AREA TO CENTRAL VALLEY HIGH-SPEED TRAIN PROGRAM EIR/EIS

The California High-Speed Rail Authority (Authority), in cooperation with the Federal Railroad Administration (FRA), completed a Final Program Environmental Impact Report and Environmental Impact Statement (EIR/EIS) in September 2005 for a high-speed train system in California. The Authority and FRA are now starting to prepare a separate Program EIR/EIS to address the choice of a corridor/general alignment and station locations from the San Francisco Bay Area to the Central Valley segment of the high-speed train system. Also, the Authority, Metropolitan Transportation Commission, BART, and Caltrain, along with a coalition of rail passenger and freight operators, will be preparing a comprehensive Bay Area Regional Rail Plan.

To ensure that the issues most important to residents, public agencies, and other involved parties are addressed in the new Draft Program EIR/EIS, the Authority is seeking your participation in a series of scoping meetings to collect public input. Your participation and comments will help determine the range of alternatives and environmental issues to be addressed for the Bay Area to the Central Valley segment.

The Notice of Preparation (NOP) for the Program EIR/EIS, the schedule and location of scoping meetings, and a listing of other public meetings are available at www.calhighspeedrail.ca.gov. You can also provide comments at the Authority's website or by writing to the address on the front of this matter.

UPCOMING SCOPING MEETING

Meetings begin at 3:00 PM and 6:00 PM.

Oakland: November 29 – MetroCenter
 San Jose: November 30 – New San Jose City Hall
 San Francisco: December 1 – Civic Center Complex, Hiram Johnson Building
